Professional Summary

Entry-level Governance, Risk, and Compliance (GRC) Analyst candidate with a Master of Science in Information Technology and a strong interest in cybersecurity, risk management, and regulatory compliance. Familiar with information security concepts, risk assessment, security controls, and documentation practices through academic learning and hands-on cybersecurity labs. Seeking an opportunity to contribute analytical skills and support organizational security and compliance initiatives.

Education

Thakur College of Science and Commerce

M.Sc. Information Technology — CGPA: 8.25/10

Mumbai, Maharashtra

2024 – 2026

Nirmala Memorial Foundation College of Commerce and Science

B.Sc. Information Technology — CGPA: 7.83/10

Mumbai, Maharashtra

2021 – 2024

Certifications

- Google Cybersecurity Certificate
- Introduction to Cybersecurity – Cisco Networking Academy
- Cybersecurity Fundamentals – IBM
- Fortinet Certified Associate in Cybersecurity (FCA)
- Digital Personal Data Protection Act (DPDPA) Certificate
- ISO/IEC 27001 Fundamentals

Projects

Information Security Risk Assessment Project

2026

- Identified assets, threats, vulnerabilities, and security risks; created a risk register with impact, likelihood, and mitigation recommendations.
- Mapped security controls with NIST Cybersecurity Framework principles.

ISO/IEC 27001 Security Controls Mapping Project

2026

- Analyzed ISO/IEC 27001 security controls and documented control objectives for an Information Security Management System (ISMS).
- Prepared compliance documentation and identified potential control gaps.

Cybersecurity Hands-on Lab Practice

2025 – Present

- Practiced networking, Linux fundamentals, vulnerability concepts, and security monitoring using cybersecurity lab environments.

Technical Skills

Security Concepts: Risk Assessment, Vulnerability Management, Access Control, Incident Response, Security Policies

Frameworks: NIST Cybersecurity Framework, ISO 27001 Fundamentals, CIS Controls

Operating Systems: Windows, Linux Fundamentals

Tools: Wireshark, Nmap, Microsoft Excel, Git, Virtual Machines

Documentation: Risk Registers, Compliance Reports, Security Documentation, Technical Writing

Soft Skills

Analytical Thinking | Attention to Detail | Problem Solving | Communication Skills | Technical Documentation |
